Starting Sight Words WORKBOOK

Introduction

Starting Sight Words ~ Workbook provides activities to help young students recognise and use high frequency sight words.

* The activities are simple and repetitive in order for the students to experience success and develop confidence in these early stages of reading.

* The activities focus on the visual aspects of words, so that the students will begin to develop quick word recognition and be able to use these words in conjunction with developing phonetic awareness.

* 135 high frequency sight words are covered.

Starting Sight Words ~ Workbook provides activities to help young students recognise and use high frequency sight words.

- * The activities are simple and repetitive in order for the students to experience success and develop confidence in these early stages of reading.
- * The activities focus on the visual aspects of words, so that the students will begin to develop quick word recognition and be able to use these words in conjunction with developing phonetic awareness.
- * There are 135 high frequency sight words covered.

This book is suitable for the following grades in different states.
