Jigsaw Multiplication - presents multiplication sums with and without trading in an interesting and creative way.

- * Students complete multiplication sums that range from simple to more complex and then use the answers to complete a jigsaw with a number code.
- * These worksheets are ideal for home study or as an aid for the classroom teacher or casual teacher.
- * Self-marking to make it easy.
- * Excellent for fast finishers, homework sheets or tutoring assignments.
- * Follows the Australian curriculum.

This book is suitable for the following grades in different states.
