## INTRODUCTION

'Phonics Digraphs' is designed to introduce students to consonant digraphs, vowel digraphs and vowel consonant digraphs.

The aim of this book is to encourage students to identify the digraphs within words and to be aware of the associated sound.

Activities include:

- filling in the missing sounds,
- word searches,
- writing words inside their shapes,
- writing words to match a picture,
- cloze exercises,
- writing lists of words,
- circling sounds within words etc.

Revision and evaluation pages are also provided to reinforce the digraphs being treated.

There is also a teacher reference page, which has lists of words for each digraph.
