READ and COLOUR

Digraphs

Introduction

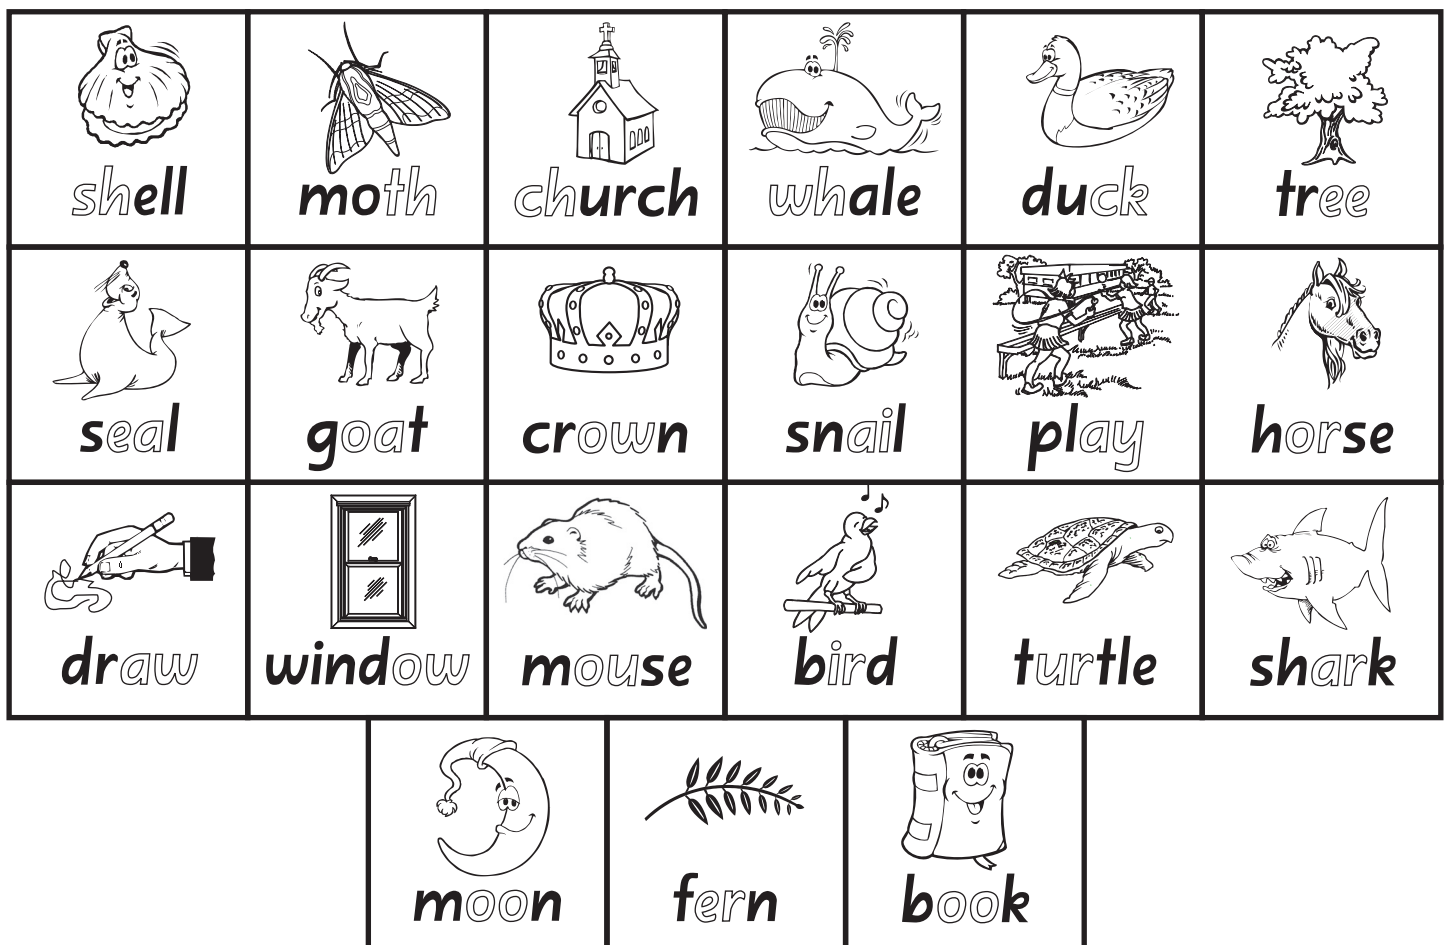

'Learning to Read ~ Digraphs' will reinforce the recognition of vowel and consonant digraphs.

The activities involve writing and recognising the digraph within words.

A digraph is a pair of letters representing a single speech sound such as 'ea' in leaf or 'ch' in chip.

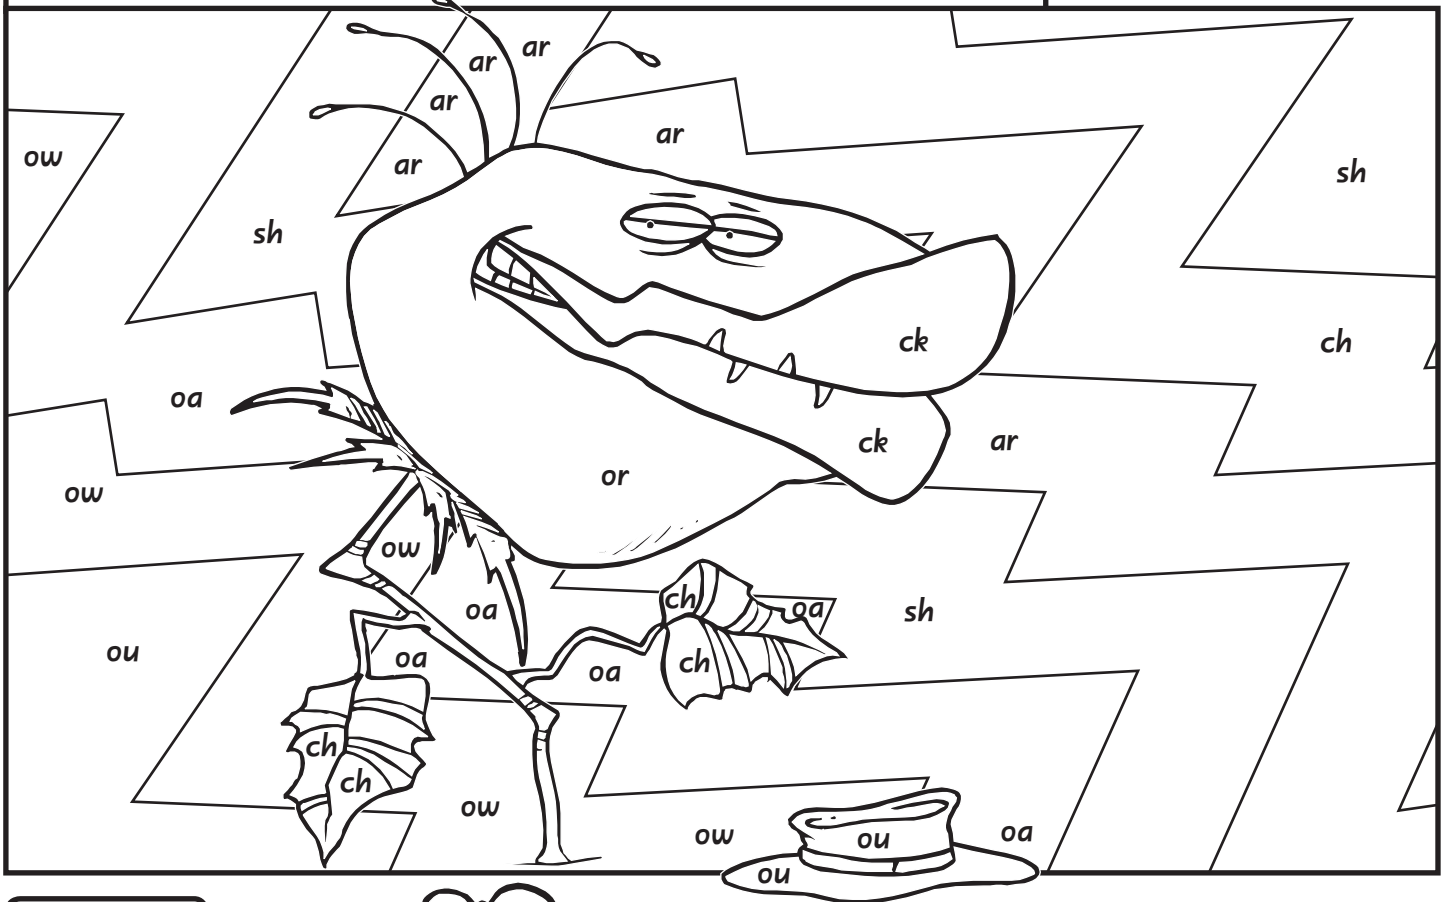

The students look at pictures and write the missing digraph or finish a word in a sentence.

The pictures below are examples of the digraphs treated in this book.

Write the missing sounds. Colour the picture.

Finish in your own colours.

Use these sounds to make words.

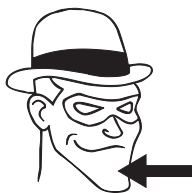

ar ow sh ou ch oa ck or

‘Read and Colour ~ Digraphs’ will reinforce the recognition of consonant, vowel consonant digraphs and diphthongs.

- * Students look at pictures and are asked to write the missing digraph or have to complete a word in a sentence.
- * They then identify the sounds in a large picture and colour it according to the displayed colour code.
- * The digraphs treated in this book are:
 sh th ch wh ck ee ea
 oa ow ai ay or aw ow
 ou ir ur ar oo er oo
